PROFESSIONAL SUMMARY

MCA graduate and Frontend Developer fresher with hands-on experience developing web applications using HTML, CSS, JavaScript, and React. Practical knowledge of REST API integration, React Router, Context API, React Hooks, Axios, and LocalStorage, demonstrated through E-Commerce Store, Expense Tracker, and Job Finder projects. Seeking an entry-level Frontend Developer role to contribute to user-focused web applications.

TECHNICAL SKILLS

Frontend	HTML5, CSS3, JavaScript (ES6+), React.js
React	React Router, Context API, React Hooks, Component-Based Architecture
Web Development	REST API Integration, Axios, LocalStorage, Responsive Design
Tools	Git, GitHub, Vercel

PROJECTS

E-Commerce Store | React, JavaScript, HTML, CSS

- Developed an e-commerce application and connected a product API with loading and error handling.
- Added product search and Context API-based cart management, including quantity controls and grand total calculation.
- Persisted cart data with LocalStorage and published the application on Vercel.

Project: GitHub | Live Demo

Job Finder | React, JavaScript, HTML, CSS

- Created a job search application with jobs API integration and search, location, and category filters.
- Delivered job details and saved-jobs features, retaining saved jobs with LocalStorage.
- Set up client-side navigation with React Router and deployed the application on Vercel.

Project: GitHub | Live Demo

Expense Tracker | React, JavaScript, HTML, CSS

- Designed an expense management application with create, read, update, and delete operations.
- Introduced search and filtering features, with Context API managing application state.
- Maintained expense data in LocalStorage and hosted the application on Vercel.

Project: GitHub | Live Demo
